

Addendum No. 3 dated January 28, 2010

Question No. 1:

Will all awards be made together at the same time?

Answer:

Not necessarily. JPL may make awards in April 2010 and may make additional awards in August 2010, depending upon available funding.

Question No. 2:

Is the focus of the RFP for applicants to propose new landing sites for MSR and/or MAX-C, or for applicants to propose data analyses for landing sites chosen by others or perhaps both types of proposals are applicable to this RFP? Is one type or the other type of proposal more likely to get funded?

Answer:

Both types of proposals are equally likely to get funding.

Question No. 3:

Is it appropriate to respond to the future landing site RFP by providing data on surface properties other than geology?

Answer:

Yes.
